

Cabell County Schools has met with the following Healthcare Providers and recommend that all non-emergency treatment be sought at these facilities. They are aware of our Return to Work Policy and Light Duty Program. Walk-in patients, X-ray machines and Physical Therapy are just a few of the many services that are offered by these healthcare providers. If possible, bypassing the emergency room for non-emergency related treatment will save you hours of waiting while still giving you the care that you deserve.
